

Year 5

Curriculum Overview – Spring 1

Maths

In maths this term we will be learning about prime numbers, factor pairs, square numbers and cubed numbers. We will also be learning methods for solving multiplication and division problems.

Science

In science this term we will continue with our context and look at Earth and Space. We will learn about the different planets.

DT

In DT this term we are looking at electrical components. We will design a night light and use electrical components to light it up!

RE

In RE this term we are learning about Islam. We will learn about the different traditions and celebrations.

French

In French this term we are learning the names of the different planets in French. We will also write sentences about the planets.

PE

In PE this term we will be learning how to play basketball. We will learn the skills required to play and the rules of the game.

English

Reading

Our context this term is Earth and Space. We will be reading 'Where we Once Stood' by Christopher Riley and Martin Impey. Our non-fiction text will be 'A Galaxy of her own' by Libby Jackson

Writing

In writing this term we will be learning about the features of a Biography. We will use these skills to write our Biography about a famous female astronaut.

We will also be learning how to write a setting description about a planet using figurative language.

Other writing skills we look at this term is the use of commas and the use of clauses to extend sentences

History

In History this term we will be learning about Earth and Space. We will look at the Origins of Space and the history of space exploration.

Music

In Music this term we will be learning Samba drumming.
